

ENEOS

IMPORT LUBRICANT CENTER

FASTER FLUID CHANGES FOR BUSY SHOPS

ENEOS Import Lubricant Center offers a system designed to hold ENEOS bag-in-box products and their transfer containers, reducing cost, waste, and time spent by mechanics. The unit can be customized to fit the specific needs of any customer base.

AVAILABLE PRODUCTS:

CHOOSE ANY SIX OF THE FOLLOWING BIB PRODUCTS:

- › 0W-16 Motor Oil
- › 0W-20 dexos1™ Motor Oil
- › 5W-20 Motor Oil
- › 5W-30 dexos1™ Motor Oil
- › 5W-40 Motor Oil
- › ECO-ATF PLUS Transmission Fluid
- › ECO CVT Fluid

BENEFITS:

- › **Convenient** – all lubricants in one place
- › **Customizable** – order and stock frequently used products
- › **Space-saving** – holds multiple products in a small space, minimizing storage area vs. quarts and gallon bottles
- › **Streamlines process** – eliminates juggling individual, smaller bottles; easy-to-use dedicated transfer bottles do not require funnel; less time spent ordering and restocking products
- › **Reduces waste** – decrease spillage and packaging. One box holds 24 quarts and reduces almost 90% of plastic. Fully recyclable and more eco-friendly

CREATE A CONVENIENT, CUSTOMIZED SYSTEM.

Choose from the available options to build a lubricants rack system suited for your specific needs and customer base. Change the units during any reorder.

6-Gallon Box with plastic insert bag and spout provides accurate measurement and minimizes residual oil.

Plastic Transfer Bottle is dedicated to each lubricant.
